## GENUINE BRINK® MIST ELIMINATORS FOR CHLORINE PLANTS

### FEATURES AND BENEFITS

#### WET BRINK®

- Eliminates brine carry over
- Improves drying tower performance
- Reduced sulfuric acid consumption

#### DRY BRINK®

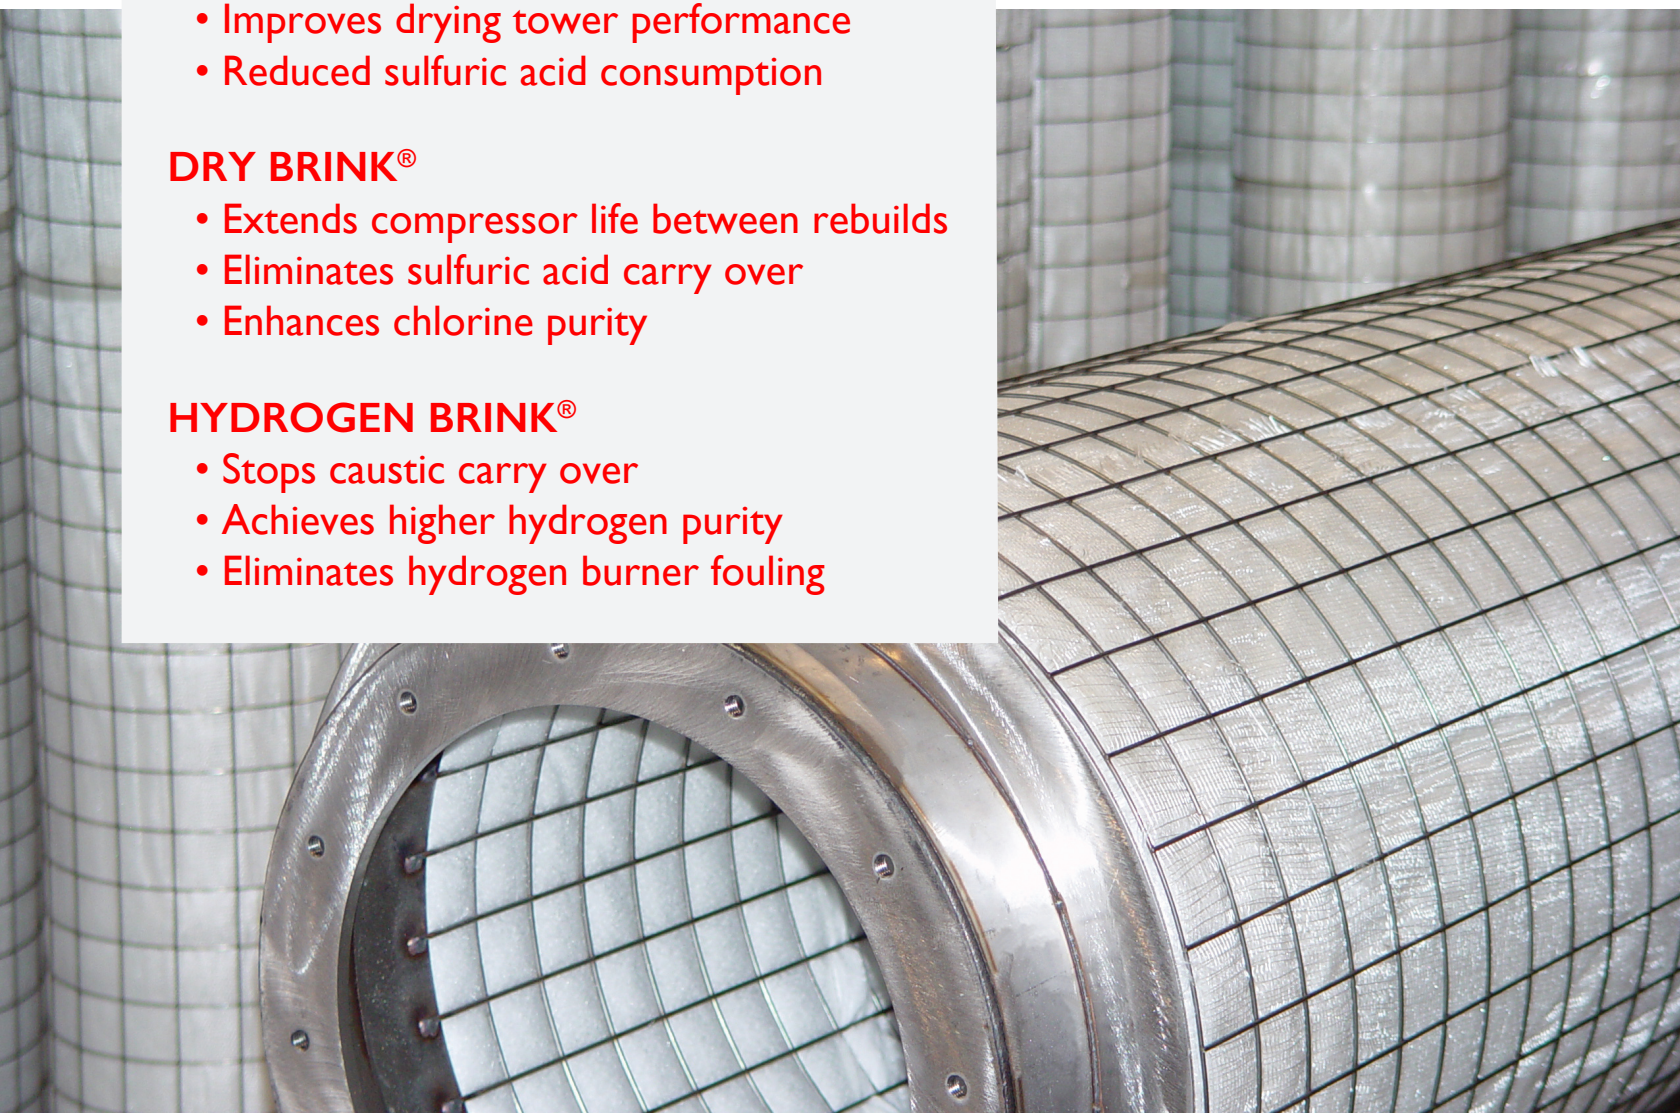

- Extends compressor life between rebuilds
- Eliminates sulfuric acid carry over
- Enhances chlorine purity

#### HYDROGEN BRINK®

- Stops caustic carry over
- Achieves higher hydrogen purity
- Eliminates hydrogen burner fouling

### OVER 40 YEARS

*of hands on industry experience*

**Elessent Clean Technologies**

## **GENUINE BRINK® CONCENTRICS-CHLORINE PLANT DEBOTTLENECKING SOLUTIONS**

Achieve more capacity or lower pressure drop using genuine Brink® concentric mist eliminators.

- Increases element surface area without requiring tubesheet modification
- Lowers pressure drop or increases flow capacity
- Available for Wet, Dry and Hydrogen Brink®
